Education

2014–2017 **Ph.D.**, *INRIA - LIRIS*, Lyon, France.
Computer Science.

2013–2014 **M.Sci.**, *ENS*, Lyon, France.
Fundamental Computer Science, specialisation in Complex Systems.

2009–2014 **Engineering degree**, *INSA*, Lyon, France.
Bioinformatics and Modelling, **Honorable mention**.

Work Experience

2017 **Data Scientist**, *Atos Worldline*, Lille, France, High Performance and Volume R&D Team.
- Deep Learning Methods (LSTM and Autoencoders) for anomaly detection in time-series data.
- Application to Toro Rosso F1 cars telemetry data for early detection of technical problems.

Research Experience

2018 **Postdoctoral Research**, *CMLA - ENS*, Cachan, France, MLMDA team, Mathilde Mougeot and Nicolas Vayatis.
- Project: Industrial data analytics & Machine learning (industrial partners: Atos and CEA).
- Research on Transfer-Learning methods and their industrial application.
- Modelling temporal dynamics of diffusion networks.

2014–2017 **Ph.D. Research**, *INRIA - LIRIS*, Lyon, France, BEAGLE team, supervised by Christophe Rigotti and Guillaume Beslon.
- European project EvoEvo that aims to study evolution and develop bio-inspired algorithms.
- Evolutionary Subspace Clustering algorithm for dynamic data streams (SubMorphoStream).
- K-medians Subspace Clustering algorithm for static datasets (KymeroClust).
- Bio-inspired evolutionary Subspace Clustering algorithm for static datasets (Chameleoclust).
- Wi-fi signals analyser based on Evolutionary Algorithms (EvoWave).
- Evolutionary musical companion for dancers (EvoMove).

2016 **Visiting Researcher**, *Faculty of Sciences Universidad Mayor de San Andrés (UMSA)*, La Paz, Bolivia, Collaboration with Heriberto Castañeta Maroni.
- Analysis of high dimensional physical features of chemical compounds using Subspace Clustering.

2014 **M.Sci. Research**, *INRIA - LIRIS*, Lyon, France, BEAGLE team, supervised by Christophe Rigotti and Guillaume Beslon.
- Development of *in silico* models to study the evolution of bacteria genome structure.
- Design of an evolvable Clustering algorithm that adapts to data by changing its genome structure.

2013 **Undergraduate Research**, *LBMC, ENS*, Lyon, France, Genetics of Intra-Species Variations team, Supervised by Gael Yvert.
- Design of computer driven statistical analysis of genetic regions involved in selective advantage of yeast populations under breeding.
- Detection of genetic regions involved in bioethanol manufacturing for Lesaffre company.

2012-2013 **Undergraduate Research**, *Faculty of Sciences Universidad Mayor de San Andrés (UMSA)*, La Paz, Bolivia, Supervised by Heriberto Castañeta.

- Genetic Algorithms and Neural Networks methods for Q-SAR of chemical compounds adsorption.
- Predictive Analysis of RNA secondary structure by Neural Network algorithms.

Awards

2015 **Best Paper Award**, *Evolutionary Machine Learning*, International ACM conference on Genetic and Evolutionary Computation Conference, Madrid - GECCO-2015.

Posters

2016 LIRIS, Journée des Thèses du LIRIS (2016): Subspace Clustering Based On Bio-Inspired Evolutionary Algorithm.

Oral Presentations

Invited Talks

2017 Invited Speaker, Electrical Engineering Department UMSA, La Paz Bolivia: Minería de datos dinámicos y estáticos mediante algoritmos evolutivos de subspace clustering [Mining static and dynamic data using evolutionary subspace clustering algorithms].

2017 Invited Speaker, Linguistics Department UMSA, La Paz Bolivia: Breve introducción al procesamiento de lenguajes naturales y a la minería de datos basada en inteligencia artificial.

2016 Invited Speaker, BeyondLab Math-Info event (Industrial transfer event): EvoEvo (Evolution of Evolution).

Contributed Talks

2017 LIRIS, DM2L Team: Subspace Clustering Using Bio-Inspired Algorithms.

2016 LIRIS, DM2L Team: Subspace Clustering Using Evolvable Genome Structure.

Other Talks

2017 Presentation to IT manager board from Toro Rosso F1 (customer).

2017 Presentation to commercial manager board from Atos Italy (commercial partner).

Teaching Experience

2014–2016 **Modelling of Biological Systems using MATLAB**, INSA, Lyon.
A course for third year students of the Dept. of Bioinformatics and Modelling (6 hours).

2014–2016 **Data Bases and SQL**, INSA, Lyon.
A course for third year students of the Dept. of Bioinformatics and Modelling (28 hours).

2014–2016 **Algorithmic and Programming on Python**, INSA, Lyon.
A course for third year students of the Dept. of Bioinformatics and Modelling (30 hours).

2012–2014 **Academic Tutoring**, *Passerelle Program*, INSA, Lyon.
Academic tutoring in mathematics and programming for first and second year students.

Technical skills

OS Linux, Microsoft Windows, OSX

Programming python, C, C++, R, Matlab, Java, LaTeX, html, CSS

Databases MySQL, SQLite,

Language Skills

French (native), **Spanish** (native), **English** (Fluent, TOEIC 2013)
Portuguese (Very good command, B1 2014), **Italian** (Good command, B1 2013)

Extramural Activities

2014 Development of the "Informatique Sensorielle" project for artistic exploration using Neural Networks. Participation in the 4th RADART meeting.
